Seldat Technology Services to Present at Freightwaves Event Transparency19

Apr 11, 2019

Freightwave is the number one logistic news site in the world, and their event, Transparency19, will cover innovation and digitization trends across trucking, logistics, supply chain, block chain, IoT, telematics and data.

South Plainfield NJ, April 12, 2019 - Seldat Technology Services, a leading provider of technology-based global supply chain solutions, announced today that they were a presenter at Freightwaves's Transparency19. Freightwave is the number one logistic news site in the world, and their event, Transparency19, will cover innovation and digitization trends across trucking, logistics, supply chain, block chain, IoT, telematics and data.

By participating in Transparency19, Seldat Technology Services will be bringing their knowledge of the global supply chain as developers of Logistics solutions used in manufacturing, retail, warehousing and transportation companies. They possess a detailed understanding of everyday challenges and processes needed to satisfy client demands in procurement, warehousing, sales and delivery management software. Seldat Tech offers services to complement their software including SCM consultation, business process outsourcing, software development and SCM technology staffing.

Norbert Altenstad, Seldat Tech's Business Development and Sales Manager, will be presenting the overall software solution to the Transparency19 audience including Procurement software for managing quotation requests, purchase orders, conversion of quote requests to orders, delivery status updates and invoicing.

Their WMS360TM manages single and multi-warehouse environments. It provides automation, EDI, and document management. It easily and cost-effectively identifies, analyzes, and fixes workflow challenges to optimize people, processes and operations.

The Vendooo Sales Platform manages master catalog data, B2B and B2C e-commerce websites, sales discounts and promotions. The system provides sales reps a mobile app for creating on-demand orders on-site.

Solocate supplies complete visibility and optimization for dispatch, route, and delivery operations. Users can respond to businesses, drivers, and customers with real-time incident handling, streamlined fleet capacity management, and total control over the process from order through proof of delivery.
